The Vijitt Resort installs it's guardian Spirit

March 6th 2009, The Vijitt Resort Phuket installed "Pra-In" as it's 'Spiritual Guardian' in a Brahman style ceremony on what is considered an auspicious day March 6th. The blessing and installation is the final touch that completes a 2 year, 550 million baht project creating Rawai's most luxurious resort with 92 individual Villas 20 of which have their own pools.

The Villas are complemented with 2 further guest pools, 2 restaurants, 2 bars, The 'V' Spa, gymnasium, kids club and The Plaza which have 2 souvenir shops.

The overall feel is created by using a combination of strong Southern Thai interfaces with a contemporary twist and while the resort has quite a "Chic" feel it is not at the expense of guest comfort.

"From the outset we continually questioned ourselves 'Well this make the guest feel relaxed and at home?'" and if the answer was no – then we make arrangements: and we continue to ask ourselves this question." Stated from James Sullivan-Tailyour, General Manager.

The resort welcomed it's first guest on September 19th 2008 and is now fully operational providing guests with a full range of facilities and services all aimed at heightening the guest experience.
